

Are You Ready To Earn Big Fat Profits Online?

Let me set up a ready-made, turnkey system for you

Are you ready for a deal like you've never seen before? Would you like to have a business that generates income for you 24 hours a day, 7 days a week, 365 days a year? Are you sick and tired of all those unproductive "schemes", "mlms" and "plans" that enrich only the originators? Are you looking for an opportunity to earn a LIFETIME income? Then take a moment to read this message which will provide you the answer to all these questions. Get set to earn big profits on an ongoing basis with this dynamic plan with YOU as the boss or head honcho! Forget about silly get-rich-quick schemes, unworkable plans, wishful thinking and money-for-nothing ideas. Why settle for crumbs and left-overs when you can partake of the whole banquet? The plan that I am going to present to you will generate some real, serious cash for you. The internet is growing by leaps and bounds, so now is the time for you to grab a share of the pie by making your online presence felt.

So, what's this plan?

The plan is about a system I will set up that will enable you to earn a handsome income online. In case you are wondering, it has nothing to do with the "get paid to read emails"-type nonsense, affiliate marketing, home typing, data posting or any of the usual internet-based schemes that end up making money only for the originators at the expense of countless losers. As I mentioned earlier, this plan will put YOU at the top and generate hefty profits for you right from the word go. I will set up the system using my know-how and the resources at my disposal.

What's expected of you :

- (1) You should have a verified Paypal account.
- (2) You should have an e-gold account. If you don't have an account, you may open one by going to **www.e-gold.com** (it's free). These two accounts are for receiving online payments.
- (3) You should possess basic internet skills.

The system I will set up comprises the following:

- (1) Supply of the digital product to be sold online. This will be a single product or a collection of several products based on a related topic.
- (2) Designing a website for selling the product. The website will have a compelling sales letter describing the product.
- (3) Registration of a domain and hosting set-up. A suitable domain name will be registered on your behalf. The domain will be registered in your name -- in other words, you will be the owner of the domain. The domain registration and hosting will be for a period of one year.

- (4) Uploading the website to the server.
- (5) Setting up an autoresponder to send out sales and other email messages to prospects and customers automatically.
- (6) Setting up an online payment system via paypal and e-gold to accept payments from customers. These payments will accrue to you.
- (7) Submitting the website to search engines and online directories/classifieds to generate traffic.
- (8) Promoting the website online to attract prospective customers. This includes placing your link on my own websites.
- (9) Setting up an affiliate program that will motivate other people to promote your website (at their own cost) for a share of the revenue.

After setting up the system as described above, I will hand over the charge to you with all the relevant information and instructions that will enable you to administer the entire set-up on your own. Don't worry, it's neither brain surgery nor rocket science! If you possess basic internet skills, you'll be able to manage it quite well. In case you need any assistance or guidance, you can get in touch with me anytime via email or phone.

How much would you pay to have such a system set up that could generate a virtually endless stream of income? If you were to approach one of those "professional" outfits, they would quote a hefty five-figure sum just for designing the website and a few basic services. You would have to pay much more if you wanted to avail of all the above-listed services, not to mention recurring fees they would be charging you for "maintenance", "administration" and what-not.

However, I won't charge you an extortionate sum for my services. You can avail of all the above services for a low, one-time payment of **only Rs. 5,000/-**. That's just a fraction of what you would normally pay elsewhere. It's a small price to pay for the first-rate service you receive and the opportunity to earn a virtually unlimited income. You now have a choice: waste your time and money chasing all those unproductive schemes and scams without ever earning a single penny, or take advantage of my expertise by spending **only Rs. 5,000/-** now and get set to earn a lucrative income for life. Which would you rather prefer? So don't waste another moment..... take advantage of this great offer by completing the Application Form and send it to me with your payment of **Rs. 5,000/-** by demand draft favouring **Oswald Rodrigues**, payable at **Panaji**. As soon as I receive your form and payment, I will start the service and inform you accordingly.
